BRUNO SOARES GUIMARÃES

Full Stack Software Engineer

Salvador, Brazil

bruno.soares.guimaraes@gmail.com | www.linkedin.com/in/bruno-sguimaraes | github.com/BrunoSGuima

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 3+ years of professional experience building and maintaining production web applications using Ruby on Rails, React, Vue.js, PostgreSQL, and Redis. Experienced in developing REST APIs, troubleshooting complex production issues, writing automated tests with RSpec, and contributing to reliable, maintainable systems. Comfortable working with Docker, AWS, CI/CD, code reviews, and cross-functional teams across Engineering, Product, and QA.

TECHNICAL SKILLS

Languages: Ruby, JavaScript, Python, SQL

Frameworks: Ruby on Rails, Vue.js, React

Databases & Search: PostgreSQL, Redis, Elasticsearch, Searchkick

APIs & Background Processing: REST APIs, GraphQL, Sidekiq

Testing & Quality: RSpec, TDD, Test Automation, Code Review

DevOps & Tools: AWS, Docker, CI/CD, Git, GitHub, GitLab, Linux

Development Practices: Agile, Scrum, Kanban, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Vortigo Digital

Software Developer | Jun 2025 – Aug 2026

- Developed and maintained features across the backend and frontend of a large-scale healthcare platform using Ruby on Rails and Vue.js.
- Investigated and resolved production issues across backend, search, background processing, reporting, and database queries.
- Maintained and improved Elasticsearch and Searchkick functionality, addressing indexing failures, data reindexing, and search and filtering behavior.
- Developed and maintained asynchronous background jobs using Sidekiq and Redis, troubleshooting failed jobs, monitoring queues, and resolving background processing issues.
- Implemented and maintained automated tests with RSpec as part of a Test-Driven Development workflow.
- Worked with AWS-based deployment environments and CI/CD workflows using GitHub, pull requests, automated validation, and deployment processes.

Rebase

Software Developer | Sep 2023 – May 2025

- Developed and maintained web application features using Ruby on Rails and React.
- Collaborated with client engineering teams to implement new features and improve existing functionality.
- Fixed bugs and investigated application issues across backend and frontend components.
- Wrote and maintained automated tests using RSpec following Test-Driven Development practices.
- Worked with Ruby on Rails, REST APIs, PostgreSQL, Docker, and Git-based development workflows.
- Participated in code reviews and technical discussions focused on code quality and maintainability.

Freelance

Frontend Web Developer | Jan 2023 – Sep 2023

- Developed responsive websites and landing pages for small businesses and independent clients.
- Built web interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Translated client requirements into functional and responsive web pages.
- Worked directly with clients throughout development and delivery.

EDUCATION

Harvard CS50

CS50's Introduction to Artificial Intelligence with Python (CS50AI) | 2026 — Present

FIAP
Technology Degree in Systems Analysis and Development | 2022 – 2023

Campus Code — TreinaDev Program
Immersive Web Development Training | 2023
Selected through a highly competitive process, with approximately 25 participants selected from 5,000 applicants.

Universidade Católica do Salvador (UCSAL)
Bachelor's Degree in Law | 2008 – 2013

LANGUAGES

- English — C2 Proficient (EF SET 75/100)
- Portuguese — Native
- Spanish — Basic
